CRYOTEXT

Our most concentrated, non-coded Wharton's jelly or human umbilical cord product that is rich in cytokines, growth factors, and scaffolding proteins. It is used as a replacement tissue that is intended to replace missing or damaged connective tissue.

Documented Case Studies with Encouraging Results Include:

- Muscular Tears
- Intervertebral Disc Spinal Facet Joints
- Plantar Fasciitis Bone Spurs
- Rotator Cuff Tears
- Persistent Partial Tendon Tears
- Quadriceps and Patellar Tendon Tears
- Meniscus and Cartilage Tears
- Radicular and Sacroiliac Nerves and Pinched Nerves
- Large Joints Such As The Hip, Shoulder, Knee

Advantages of CryoText

CryoText is used as replacement tissue that is inserted or implanted into the joint and other injured areas. CryoText does not use any material obtained directly from the embryo or fetus. CryoText has higher concentrations of peptides, hyaluronic acid and growth factors when compared to amniotic fluid suspensions. CryoText is processed from human tissue, donated following full term, c-section deliveries, in accordance with the FDA.

CryoText is regulated as a human cell, tissue or cellular tissue-based product (HCT/P) under 21 CFR Part 1271 and Section 361 of the Public Health Service Act.

How CryoText is Applied

This is a connective tissue supplement intended for homologous use only, as described in 21CFR 1271.10(a). Structural connective tissue that is missing or damaged severely may require new or additional tissue to create conditions that encourage the stability of anatomic infrastructure. CryoText does not use any material obtained from the embryo or fetus. CryoText has high concentrations of hyaluronic acid and growth factors and is processed from human tissue, donated following full term, c-section deliveries, in accordance with the FDA.

PRODUCT	SKU	DOSE
CryoText Plus <i>35mg/mL Wharton's jelly tissue product.</i>	CY+100-25	1 mL/35mg
	CY+200-25	2 mL/70mg
CryoText Pro <i>50mg/mL Wharton's jelly tissue product.</i>	CYP100-25	1 mL/50mg
	CYP200-25	2 mL/100mg
